

As writers, we will be exploring the story of Bob, Man on the Moon. We will explore the characters and write our own Man on the moon adventure. We will then look at other alien and space stories and try to use common vocabulary in our own "Space Stories".

As scientists, we will be observing seasonal change. We will also be working scientifically by designing and carrying out some simple experiments.

As mathematicians, we will begin by exploring mass, capacity, time and statistics. We will then consolidate and expand our knowledge of all four operations.

As explorers, we will be studying the 'Space Race' and focusing on Neil Armstrong and the Moon landing. We will also continue to explore the seasons, as well as weather and temperature.

Hedgehog Class Meet The Aliens! Summer Term 1 2022

As artists and designers, we will be creating "Space Themed" print, using our own designs. We will also participate in lots of cross curricular art around our topic of aliens and space focusing on line and shape. In DT we will try to make some Space Rock Cakes!

In PE, we will be improving our athletic skills of throwing and striking a ball in game setting. PE is on Tuesdays and Thursdays.

Our Learning Questions:

Courageous Advocacy - Do we need to find alternatives for fuel for our future?
How can we find out about Space?

In RE we will be exploring people in the Old Testament, including Moses.

Our Christian Value this term is Forgiveness.

In Music, we will be listening to Space music and creating space themed music of our own.

At the end of term we hope to be holding a special 'Space Day'! More information will follow.
