

As mathematicians, we will be working on decimals including money: converting pounds and pence and ordering and calculating amounts of money. We will also be writing, comparing, ordering and rounding decimals. In our learning about time, we will be recapping our understanding of the calendar and time duration. We will learn both analogue and digital time

As scientists, we will be looking at forces, gravity, friction and magnetic attraction. We will be comparing how things move on different surfaces and will be observing how magnetic forces work from a distance and how magnets attract and repel each other. We will learn about the principle of gravity and how it was discovered!

In English, we will be reading the non-fiction book- 'The Pebble in my Pocket' as well as a range of poetry, fiction and information texts related to our topic. Daily reading lessons will improve our comprehension skills. We will write a range of text types based on our reading: poetry, persuasive writing, and explanations. We will learn spelling, grammar and punctuation

In our RE lessons, we will be learning about the customs and traditions around the Jewish rite of passage Bar/ Bat mitzvah and will be exploring the importance of the synagogue for the Jewish religion. In addition we will be learning the Hebrew words for the different parts of the synagogue.

Term 5 2022

Mighty Mountains and Vast Volcanoes

In Spanish lessons, we will continue to learn the vocabulary for food and how to order food in a restaurant!

In PE, we will be developing our skills in netball and basketball as well as striking and fielding

In PSHE, we will be looking at relationships. We will be thinking about family roles and responsibilities, friendship, keeping safe online as well as global citizenship.

Our Learning Concepts

Fear, Resilience and Dreams

In Geography, we will be learning the names and locations of famous mountain ranges, the different layers of the Earth and how volcanoes were formed. The children will consider dangers on mountains and how various people use mountains for leisure or work. We will also learn about Edmund Hillary and his expedition to the summit of Everest.

In computing, we will be using our research skills to find out more about mountains and will learn how to present this information using PowerPoint. We will also continue to learn how to stay safe on line.

In music, we will be looking at texture, dynamics, timbre, structure and pitch. We will appreciate and understand a wide range of high-quality, live and recorded music drawn from different films and from great composers and musicians.

In art, we will be exploring different landscape artists such as David Hockney and using natural resources to create outdoor sculptures in the style of Andy Goldsworthy.
